**Wednesday**  
**February 7, 2018**  
**6PM to 7PM**  
**Dearborn High School Cafeteria**

***Free*** ***Parent/Guardian Presentation***

The purpose of this free educational presentation for parents/guardians is to provide a comprehensive understanding of depression, anxiety and psychosis in teens including early signs, symptoms and treatment options. Mental health illness left untreated in teens can lead to a lifelong debilitating illness. Thus, early identification and treatment is important for long-term life success.

Agenda includes:

- 1) To define depression and anxiety and symptoms of each.
  - 2) To define psychosis and symptoms.
  - 3) Understanding the school impact on teens that are affected by mental illness.
  - 4) To provide information on how to identify early signs of depression, anxiety and psychosis.
  - 5) To provide information on resources to help as well as treatment options for the family.
- Refreshments will be provided.
  - Please call, or email, to let us know you are attending, or for questions. Contact info is, 313-827-1628 or [Rumlars@dearbornschools.org](mailto:Rumlars@dearbornschools.org).
