

# Help grant a classroom wish!

Teachers spend much of their own money each year on various classroom supplies and the PTA asked them to come up with items that they need for their classrooms. We want to help them out as much as possible, so if you are interested and able to help out a classroom, here are some items that would help. We also have a "wishlist" board just outside the gym where we've posted their items if you'd like to check it out. Thank you so much for helping out our teachers and granting some classroom wishes! We will be adding to this a more requests come in.
