There is no better way to build early literacy skills than to involve the entire family! Supporting language, literacy and reading development of young children is the responsibility of parents, teachers, and the community.

The Children and Families Program is excited to host our 4th annual family literacy event. Families are encouraged to join us for a fun, exciting and educational morning filled with lots of fun things for little ones to do! Children will have fun while they are learning, and parents will leave with creative ideas to improve their children's literacy skills at home.
