Stout Middle School SIP 2017

Overview 29

Goals Summary 30

 Goal 1: Writing: All students at Stout Middle School will demonstrate growth in becoming proficient writers 31

 Goal 2: Reading: All students at Stout Middle School will demonstrate growth in becoming proficient readers 46

 Goal 3: Math: All students will demonstrate improved computational and problem solving skills in mathematics 91

Activity Summary by Funding Source 115

Introduction

The SIP is a planning tool designed to address student achievement and system needs identified through the school's comprehensive needs assessment (CNA). Additionally, the SIP provides a method for schools to address the school improvement planning requirements of Public Act 25 of the Revised School Code and the Elementary and Secondary Education Act (ESEA) as applicable.

Improvement Plan Assurance

Introduction

During the 2016-2017 school year, schools will have two options for Goals and Plans. 1. Update Goals and Plans, if necessary, based on analysis of data and Program Evaluation; 2. Complete and upload the Abbreviated Goals and Plans template into ASSIST, based on analysis of data and Program Evaluation.

Improvement Plan Assurance

Label	Assurance	Response	Comment	Attachment
1.	Which option was chosen for Goals and Plans?	Goals and Plans in ASSIST	See Goals and Plans in ASSIST	

Title I Schoolwide Diagnostic

Introduction

This diagnostic tool is aligned to requirements for Title I Schoolwide schools. The Comprehensive Needs Assessment must be completed prior to creating a new plan or annually updating an existing school improvement plan. Use the results of the Comprehensive Needs Assessment to develop Goals/Objectives/Strategies and Activities. Ensure that the Comprehensive Needs Assessment addresses all four types of data: student achievement data, school programs/process data, perceptions data (must include teachers and parents; student data is encouraged), and demographic data. The Comprehensive Needs Assessment must also take into account the needs of migratory children as defined in Title I, Part C, Section 1309(2).

Component 1: Comprehensive Needs Assessment

1. How was the comprehensive needs assessment process conducted?

During the school year various stakeholders looked at a variety of data points to determine the needs of our students. As part of this process, the goals in the school improvement plan were re-visited and assessment data from standardized tests (M-STEP, NWEA, PSAT, and WIDA) was reviewed. The School Improvement Team looked at Local Assessments such as District common assessments in Math, Language Arts and Science and reviewed diagnostic assessments. The team looked at sub-group performance, gaps, and growth. Parent, Teachers, and Students were surveyed and the responses were reviewed. The staff completed a analysis of student achievement data making note of areas of strength and areas in need of improvement.

2. What were the results of the comprehensive needs assessment process? What information was concluded as a result of analyzing perception, student achievement, school programs/process, and demographic data?

The comprehensive needs assessment showed large gaps in Reading, Writing, and Math between the achievement of ELL students and non-ELL students. The assessment also revealed a large gap in math achievement between black students and white students. The assessment indicated that school wide, achievement was once again higher in all core academic areas than the previous school year. However, the achievement gaps did not significantly lessen and in some cases were larger than the previous year. Some subgroup data continues to show an upward trend. In particular, reading achievement for ELL students and formerly ELL students continues to increase.

After analyzing several data sources, it would appear that Tier I Language & Literacy strategies have been effective and are raising reading achievement for all students. However, since these strategies are targeting all students, all students are improving and the achievement gaps for subgroups are not lessening. With respect to reading, Tier II & Tier III strategies need to be examined and improved. Tier III strategies were put into place and many students met their projected outcomes. However, continuing and expanding Tier III strategies needs to be examined. Moving forward, this should be the emphasis for reading.

Although building-wide, math achievement continues to improve, there are some inconsistencies in the student data. The focus on differentiating math instruction needs to continue and in addition to focusing on problem solving, teachers need to use strategies to improve computational skills. The math achievement data indicates that students' computational skills are poor. For math, Tier I instruction still needs to remain a focus. However, Tier II & Tier III strategies should also be examined. Consistency of implementation needs to be improved at all grade levels.

For writing, there is not as much available data as for reading and math. However, the available data indicates an upward trend in achievement for all students and all subgroups. Students are more competent at narrative writing, so informational and argumentative writing should receive greater emphasis.

Gaps also exist for students with disabilities in all content areas and for economically disadvantage students. Trend data does not show a clear pattern for these subgroups as results have varied each year.

3. How are the school goals connected to priority needs and the needs assessment process? It is clear that a detailed analysis of multiple types of data was conducted to select the goals.

Our priority areas are aligned with our goals in that:

1. Full implementation of the state standards will address life and career skills such as: critical thinking, collaboration, communication, creativity, information, media and technology. Implementation of the state standards supports our reading, math, and writing goals.
2. Implementing Language & Literacy strategies will lead to improvement in specifically academic language acquisition, oral language, informational writing, and argumentative writing in all subject areas. Language & Literacy will also address skills such as critical thinking and communication in the teaching of core academic subjects. These strategies directly support our reading and writing goals. The academic language strategy also supports our math goal.
3. Supporting problem solving in Math and Science focus will also address skills such as critical thinking and reasoning. Improving computational skills will provide students will a stronger foundation from which to apply problem solving strategies. The subgroups that will be our main focus are English Language Learners; Economically Disadvantaged; Students with Disabilities; African American students, and the bottom 30% of our low performing students.

A detailed analysis using the following information was used to create the goals in the school improvement plan.

1. Student achievement reviewed from multiple types of data of standardized tests: M-STEP, NWEA MAP assessments, and WIDA; as well as Local Assessments such as district common assessments in math, language arts and science. Staff also reviewed diagnostic assessments such as DRA. The results of these assessments have been discussed and analyzed in previous sections of this diagnostic.
2. The staff looked at our sub group performance and gaps. The results of this analysis have also been discussed and analyzed in previous sections of this diagnostic.
3. The staff looked at our growth data which was also previously noted.
4. The School Improvement Team surveyed Parent, Teachers, and Students and reviewed the responses. The results of which are detailed in the School Data Analysis.
5. In reviewing student achievement data, the team made note of areas of achievement and those in need of improvement.
6. The team also looked at our demographic and subgroup data.

4. How do the goals address the needs of the whole school population? How is special recognition paid to meeting the needs of children who are disadvantaged?

With respect to the strategies under the reading goal, all students will benefit from the implementation of Reading Apprenticeship and Daily 5. Also, all students benefit from the training that the teaching staff has received in Language & Literacy strategies. All students also benefit from the math goal which focuses on computational and problem-solving skills and from the writing goal. The focus on differentiation in all classes benefits all students, including disadvantaged students. Disadvantaged students receive extra support through intervention classes during the school day that support both math and reading development and through the after-school program, which provides content specific support.

Component 2: Schoolwide Reform Strategies

1. Describe the strategies in the schoolwide plan which focus on helping ALL students reach the State's standards.

The schoolwide plan includes strategies for a language rich classroom environments which include promoting academic literacy and language and providing scaffolding for all language levels. Additional strategies for a language rich classroom environment include the usage of total response signals and setting clear content and language goals. Teachers will also teach and use problem-solving strategies. Other strategies for effective classroom instruction include developing daily content and language objectives, using structured conversations, using structured reading and writing activities, implementing the strategies from Classroom Instruction That Works, and implementing the Reading Apprenticeship and AVID WICOR frameworks. With respect to math and science, teachers will model how to approach a problem, show how to use inductive or deductive reasoning to form predictions or questions, model how to find similarities and differences and how it impacts the outcome, and model strategies for computation.

2. Describe how the research-based methods and strategies in the schoolwide plan increase the quality and quantity of instruction (which accelerates and enriches the curriculum).

The quality of instruction is improved by utilizing explicit instruction, scaffolding, formative assessment, total response signals, and speech that includes complete sentences using academic language. The quantity of instruction is increased through extended day programs, cooperative learning groups, the use of co-teaching, differentiated instruction, Positive Behavior Intervention & Supports (PBIS), Restorative Practices, Reading Apprenticeship program, implementation of the AVID program, and intervention classes.

3. Describe how the research-based reform strategies in the schoolwide plan align with the findings of the comprehensive needs assessment.

The comprehensive needs environment identified the need for language rich classroom environments to support reading and writing growth. In addition to district-level initiatives like Reading Apprenticeship and Daily 5, the following building-level strategies support reading and writing across all content areas:

- Total participation of all English language learners
- Incorporating academic vocabulary
- Promoting academic literacy and language
- Scaffolding for all language levels
- Teach students strategies and language to use when they don't know what to do
- Have students speak in complete sentences.
- Randomize and rotate when calling on students
- Usage of Total Response Signals
- Set clear content and language goals
- Have students participate in structured conversations
- Have students participate in structured reading and writing activities

-Teach and use problem-solving strategies

Strategies for effective classroom instruction include the following:

- Developing Daily Content and Language Objectives
- Structured Conversations
- Structured Reading and Writing
- Strategies from Classroom Instruction That Works
- Focused Instruction (mini-lesson)
- Differentiated Instruction
- Strategies from the AVID program, supporting the WICOR framework

4. Describe the strategies in the schoolwide plan which provide a level of INTERVENTIONS for students who need the most instructional support in all major subgroups participating in the schoolwide program.

Intervention classes are provided to bilingual students and students with disabilities. Additionally, many students with disabilities are scheduled into co-taught classes for language arts, math, and science. All core academic area teachers provide differentiated instruction. The after-school program provides content-specific tutoring to students needing additional support. After-school tutoring is also provided to ELL students. Intervention classes are also offered to general education students who qualify based on assessment results. Students two years behind grade-level in math and/or reading are able to enroll in the middle school summer program. There is also another summer program designed for bilingual students.

5. Describe how the school determines if these needs of students are being met.

Stout Middle School determines if the needs of students are being met by conducting a regular and ongoing comprehensive review of student achievement data. Additionally, students and teachers are scheduled in teams. The teaching teams meet regularly and discuss the progress of the students on each team. Child study team meetings evaluate struggling students as well and generate possible modifications to individual students' learning plans.

Component 3: Instruction by Highly Qualified Staff

Label	Assurance	Response	Comment	Attachment
	1. Do all of the instructional paraprofessionals meet the NCLB requirements for highly qualified? Provide an assurance statement. If no, what is the number that is not highly qualified and what is being done to address this? NOTE: A schoolwide program must have all highly qualified instructional staff.	Yes	All of the instructional paraprofessionals meet the NCLB requirements for highly qualified.	

Label	Assurance	Response	Comment	Attachment
	2. Do all of the teachers meet the NCLB requirements for highly qualified? Provide an assurance statement. If no, what is the number that is not highly qualified and what is being done to address this? NOTE: A schoolwide program must have all highly qualified instructional staff.	Yes	All of the teachers meet the NCLB requirements for highly qualified.	

Component 4: Strategies to Attract Highly Qualified Teachers

1. What is the school's teacher turnover rate for this school year?

Our school's teacher turnover rate for this school year is low. 93% of our teachers were at Stout last school year. Two teachers received administrative positions in the school district and one teacher moved to another school district. Stout has a stable staff with little turnover.

2. What is the experience level of key teaching and learning personnel?

Fourteen teachers have been teaching for over 15 years.

Twelve teachers have been teaching for 9 - 15 years.

Five teachers have been teaching for 4 - 8 years.

Five teachers have been teaching for less than 3 years.

Both building administrators have been in education (teaching & administration) for at least 20 years.

The building principal has been a school administrator for the past 13 years, including 7 years as a building principal.

3. Describe the specific initiatives the SCHOOL has implemented to attract and retain high quality teachers regardless of the turnover rate.

The Stout teaching staff has a reputation for having a high degree of collegiality. New teachers are able to immediately participate in school initiatives and the school decision-making process. Teachers are scheduled in teams and new teachers are assigned strong peer mentors. Both the school and the district provide diverse and quality professional learning opportunities to all staff members. Many school initiatives at Stout Middle School are teacher driven. Additionally, Stout employs an Instructional Coach to provide support to all teachers. Stout supports teachers who take an interest in building administration which sometimes leads to teachers leaving for administrative positions, but leads to a supportive work environment where teachers can pursue their professional goals.

4. Describe the specific initiatives the DISTRICT has implemented to attract and retain highly qualified teachers regardless of the turnover rate.

The district recruits and hires teachers who are highly qualified. Representatives from the school district attend the teacher job fairs that are hosted by several of the universities in Michigan. All new teachers attend a two-day new teacher orientation where they are provided with an overview of the district curriculum, assessments, interventions, and technology, as well as tools that they can utilize to address specific learning needs and ethnic diversity. New teachers also receive ongoing professional development throughout the school year. The district employs middle school reading and math consultants who provide additional support to teachers. The district provides ongoing and meaningful professional development to all staff members. The district also offers a competitive compensation package.

5. If there is a high turnover rate, what initiatives has the school implemented to attempt to lower the turnover rate of highly qualified teachers?

Stout Middle School does not have a high turnover rate

Component 5: High Quality and Ongoing Professional Development

1. Describe the professional learning that the staff will receive that is aligned with the comprehensive needs assessment process and the goals of the school improvement plan.

Teachers have received professional development for each of the goals in the school improvement plan as listed below.

Writing Goal: All students at Stout Middle School will demonstrate growth in becoming proficient writers

1. Stout has an instructional coach that observes and assists teachers in the achievement of this goal.
2. Stout worked with a district ELL coordinator on language and literacy skills for English Language Learners and students with underdeveloped language skills. The coordinator assisted all teachers in writing meaningful and effective language and content objectives and with implementing strategies in the classroom.
3. Teachers and administration meet regularly to discuss implementation of the Common Core Standards, Classroom Instruction That Works, and to assist teachers in writing daily content and language objectives.
4. Teachers meet monthly with their content area department peers to address areas in which each subject area needs support.
5. The district language arts coordinator provides specific professional development throughout the school year, including sessions on informational writing.
6. Staff members have attend AVID program training and trained their peers in AVID strategies and methodologies.

Reading Goal: All students at Stout Middle School will demonstrate growth in becoming proficient readers

1. Stout has an instructional coach that observes and assists teachers in the achievement of this goal
2. Stout worked with a district ELL coordinator on language and literacy skills for English Language Learners and students with underdeveloped language skills. The coordinator assisted all teachers in writing meaningful and effective language and content objectives and with implementing strategies in the classroom.
3. Teachers and administration meet regularly to discuss implementation of the Common Core Standards, Classroom Instruction That Works, and to assist teachers in writing daily content and language objectives.
4. Teachers meet monthly with their content area department peers to address areas in which each subject area needs support.
5. The district language arts coordinator provides specific professional development throughout the school year, including sessions on Reading Apprenticeship and Daily 5.
6. Staff members have attend AVID program training and trained their peers in AVID strategies and methodologies.

Math Goal: All students will demonstrate improved computational and problem solving skills in mathematics.

1. Stout has an instructional coach that observes and assists teachers in the achievement of this goal
2. Staff members have attend AVID program training and trained their peers in AVID strategies and methodologies.
3. Teachers and administration meet regularly to discuss implementation of the Common Core Standards, Classroom Instruction That Works, and to assist teachers in writing daily content and language objectives.
4. The math department meets once a month to understand, unwrap and discuss how individual math teachers are implementing the Common Core Standards.
5. The district and district math coordinator provide ongoing professional development in the math curriculum and implementation of the common core.
6. The district math coordinator provides coaching, working directly with math teachers in their classrooms.

2. Describe how this professional learning is "sustained and ongoing."

1. Stout has an instructional coach that observes and assists teachers in the achievement of all goals.
2. Content and Language objectives aligned to the common core are posted each day by teachers and monitored by administration.
3. Teachers and administration meet regularly to discuss implementation of the Common Core Standards, Classroom Instruction That Works, and to assist teachers in writing daily content and language objectives.
4. Stout worked with a district ELL coordinator on language and literacy skills for English Language Learners and students with underdeveloped language skills. The coordinator assisted all teachers in writing meaningful and effective language and content objectives and with implementing strategies in the classroom.
5. The district math coordinators meet with math teachers each month for an entire day to support teachers understanding, unwrapping, and implementation of the Common Core Standards.
6. The district language arts coordinators meet with teachers each month for an entire day to support teachers understanding, unwrapping, and implementation of the Common Core Standards, and to support the implementation of Reading Apprenticeship and the Daily 5.
7. Late start meetings occur monthly. Teachers meet in content area groups to address areas in which each subject area needs support. The district's content area coordinators sometimes participate in these meetings and provide specific professional development.
8. The district provides ongoing professional development in Math and Language & Literacy throughout the school year.
9. The district provides workshop style PD for all district employees at the beginning of the year and again in Nov. The PD addresses all content areas, providing professional development in research based practices and strategies.

Label	Assurance	Response	Comment	Attachment
	3. The school's Professional Learning Plan is complete.	Yes	Stout's Professional Learning Plan is attached.	Professional Development Calendar 2017-2018

Component 6: Strategies to Increase Parental Involvement

1. Describe how parents are (will be) involved in the design of the schoolwide plan.

Stout Middle school provides parents with opportunities to help plan, review, and improve the schoolwide plan (in a language they can understand) by:

- Reviewing the School Parent Involvement Policy and the School Improvement Plan at monthly parent meetings,
- Posting the Parent Involvement Policy and the School Improvement Plan at Parent Teacher conferences with opportunities to give feedback to staff and administration,
- Conducting a Parent Survey that addresses areas of our program, and
- Utilizing multiple methods of communication with parents (newsletters, school website, teacher websites, and District publications) to update parents on the progress of the school-wide plan and to solicited input on the plan.

2. Describe how parents are (will be) involved in the implementation of the schoolwide plan.

Stout Middle school provides parents with regular opportunities to participate in the implementation of the school-wide plan by:

- Including Parents on our School Improvement Team
- Including School Improvement Plan as an agenda item at Parent Club meetings
- Posting the Parent Involvement Policy at Parent Teacher conferences with opportunities to give feedback to staff and administration
- Conducting parental surveys
- Ongoing and up-to-date web site, telephone and Email correspondence between parents, teachers and school
- Regular communication of student progress and suggestions for parental support to achieve goals.

3. Describe how parents are (will be) involved in the evaluation of the schoolwide plan.

Stout Middle School involves parents in the evaluation of the schoolwide plan in the following ways:

- In the fall at the annual Title I meeting, the plan is presented to parents and additional input is solicited.
- An annual parent meeting is held in the spring prior to completing the schoolwide plan to assess the implementation and effectiveness of the School Improvement Plan. Data such as the M-STEP and NWEA MAP assessments is presented. Dependent upon the results of those assessments, adjustments to the plan and next steps are discussed.
- Other opportunities include discussions at PTA meetings, an annual parent survey, opportunities to give feedback to staff at Parent-Teacher conferences, and meetings between administrators and individual parents regarding the plan.

School Improvement Plan

Stout Middle School

Label	Assurance	Response	Comment	Attachment
	4. Does the school have a Title I Parent Involvement policy that addresses how the school carries out the required activities of ESEA Section 1118 (c) through (f)?	Yes	Stout Middle School's Parent Involvement Policy is attached.	Parent Involvement Policy 2017-2018

5. Describe how the school is carrying out the activities outlined in ESEA Section 1118 (e) 1-5, 14 and (f).

Stout Middle school ensures all parents, including those who are disabled, speak limited English, migrant students and families, homeless students and families or who have other needs, are informed about both state and local academic standards and assessments, in parent friendly language, through interactions and discussions during or using:

- Semester Parent Conferences
- Open House
- Progress reports and report cards
- Daily grade reports (Parent Connect)
- Web based grade book
- Common Core Standards posted on school website (or hard copy available upon request)
- Teacher conference periods to be available to meet and inform parents as needed

Stout Middle school offers training and materials to parents through:

- District wide parent workshops and guest speakers
- School Newsletters/Classroom Newsletters/District Newsletters
- District Website - including "parent info" tab
- Teacher recommended websites to supplement curriculum
- Online textbooks
- Parent Connect (web-based gradebook) tutorial
- Individual meetings between parents and teachers, administrator, and/or other support staff

Stout Middle school will educate the entire staff about how crucial parent contributions are to student success through:

- Staff meetings and professional development
- Encouraging staff participation at Parent-Faculty-Student Organization (PFSO) meetings

Stout Middle school works to coordinate programs to ensure success through:

- Transition orientations - into middle school from elementary schools as well as from middle school into high school
- Monthly Parent Club Meetings
- Field Trip chaperones
- School Day Volunteer opportunities
- Activity Days and Social Nights
- Classroom observations upon request by parents
- Special Events
- Parent Club fundraisers
- New student school tours

All communication from Stout Middle School will be provided to parents in an understandable manner through:

- School Newsletters/Classroom Newsletters/District Newsletters

School Improvement Plan

Stout Middle School

- Label Assurance Response Comment Attachment
- Student Daily Planners
- Bilingual interpreters
- Website and Email - written in easily understandable language
- Accommodations for all parents of any disability

Stout Middle school will support all parents, including those who are disabled, speak limited English, migrant students and families, homeless students and families or who have other needs, all necessary accommodations for parent involvement in any reasonable manner upon request, through:

- Making every effort to accommodate parent requests to ensure that all individual needs are met to enhance parent involvement
- Varied meeting times are constantly made available to parents as alternative conference times with teachers
- Varied meeting times available to meet with counselors, administration, and all support staff are readily available

Stout Middle school provides all parents, including those who are disabled, speak limited English, or who have other needs, all necessary accommodations and support. A Parent/Community Liaison is employed to increase parental involvement.

6. Describe how the parent involvement component of the schoolwide plan is (will be) evaluated.

Parents are involved in the evaluation of the schoolwide plan through:

- Discussion sessions at PTSA meetings
- Participation in parent surveys
- Opportunities to give feedback to staff at Parent Teacher conferences
- Meetings between administrators and individual parents regarding the plan

7. Describe how the results of the evaluation are (will be) used to improve the schoolwide program.

Student assessment results are analyzed. In areas where growth has not met expectations, the current strategies will be examined and the integrity of the implementation of the current strategies will be evaluated. New strategies may also be research depending upon the results of the evaluation of current strategies. Whether or not new strategies have been adopted, the strategies included in the schoolwide program will determine the professional development that is provided to the teaching staff throughout the school year.

8. Describe how the school-parent compact is developed.

A generic outline was presented to the School Improvement Team and parents. Questions were answered and discussed. The team (parents, teachers, administrators) modified the original outline to fit Stout Middle School's needs. For parents, who are not on the team the compact is passed out at the annual fall open house where parents have an opportunity to ask questions and discuss the compact. Finally, administrators and teachers sign the compact and distributed it to students to take home for students and parents to sign.

9. Describe how the School-Parent Compact is used at elementary-level parent teacher conferences.

N/A

10. How is the School-Parent Compact shared with middle school or high school parents (depending on the grade span of the school)?

The School-Parent Compacts are sent home and collected at the beginning of school year and the return of the compacts is tracked by advisory period teacher. These are used throughout the year for individual conferences with parents and teachers, parents and administration, and at parent teacher conferences. These are used during meetings in to remind or recommit involved parties (students, parents, teachers, or administrators) of their commitment to the success of the student or to commend an involved party for their commitment.

Label	Assurance	Response	Comment	Attachment
	The School's School-Parent Compact is attached.	Yes	The Parent Compact is attached.	Parent Compact 2017-2018

11. Describe how the school provides individual student academic assessment results in a language the parents can understand.

Individual student assessment results are presented at individual parent meetings and at parent-teacher conferences. Several staff members are available for the these meetings to present the results in the parents' home language.

Component 7: Preschool Transition Strategies

1. In what ways does the school connect with preschool age children more than a once a year visitation to the kindergarten classroom?

Incoming 5th grade students:

- Students from Stout's four feeder elementary schools visited Stout during the school day with their 5th grade teachers in the Spring to meet each other and learn about middle school.
- Students are walked through the course selection process
- A sixth grade orientation is held at the end of the school year for all incoming 5th graders and their families. A presentation introducing the middle school staff and what the parents and students can expect from the school and what the staff expect from them. A tour of the school follows.
- During the summer a welcome letter is sent out to all incoming 5th graders and their families.
- In the fall, all incoming 6th graders are met by their teachers, walked to their classrooms, and tour the school.

Outgoing 8th grade students

- A team of administrators and counselors from the high schools visit all outgoing 8th graders in the spring of each year and provide them with a presentation about high school.
- In separate presentations 8th grade students assemble to hear presentations about various high school opportunities
- A ninth grade orientation is held at the end of the school year for all outgoing 8th graders and their families. A presentation about high school and what the parents and students can expect from the and what the school expect from them. A tour of the school follows.
- During the summer a welcome letter is sent out to all incoming 9th graders and their families.
- In the fall all incoming 9th graders are invited to a 2 week pre-high school preparation called the 9th grade academy.
- Before the beginning of the school year, the 9th graders are invited to a kick-off day of activities and they are paired with peer mentors to help them acclimate to high school. This is called "Link Crew"

2. What types of training does the school provide preschool parents and/or preschool teachers on the skills preschool age children will need when they enter kindergarten?

N/A

Component 8: Teacher Participation in Making Assessment Decisions

1. How do teachers provide their input into the decisions regarding the use of school-based academic assessments?

Teachers make decisions about several types of school-based academic assessments. Teachers utilize formative assessment to check for student understanding during instruction to inform instruction. They often develop summative assessments with the grade-level and content area peers. These summative assessments provide teachers with a picture of the progress students have made in meeting standards. Teachers also participate in creating both school and district-level common assessments in their content areas. Teachers also provide input on the assessment schedules for both building and district-level assessments.

2. How are teachers involved in student achievement data analysis for the purpose of improving the academic achievement of all students?

Teachers meet in departmental groups, teams, grade-level groups, and school improvement committee groups to analyze student achievement data. This data is used to create and update the school improvement plan, to drive classroom instruction, and to determine classroom instructional groups. The data is also used to determine Tier I, II, and III interventions, and to evaluate the effectiveness of instructional practices and the strategies in the school improvement plan. The following assessments were used during the past school year: M-STEP, NWEA MAP Assessments, Directed Reading Assessment (DRA), District Common Math Assessments, District Common Writing Assessment, Corrective Reading Screener Assessments, and PSAT.

Component 9: Timely and Additional Assistance to Students Having Difficulty Mastering the Standards

1. Describe the process to identify students who experience difficulty mastering the State's academic achievement assessment standards at an advanced or proficient level.

Teachers meet in departments and teams analyze M-STEP and NWEA student achievement data. This data is used identify students for Tier I, II, and III interventions. Additionally, student who are having difficulty during the school year may have their learning plan reviewed by their team at a child study meeting. Tier I interventions are discussed by the team of teachers and implemented in the classroom. Support staff may be consulted regarding Tier II or Tier III interventions. Data from the mischooldata.org website is also used to identified students who are not meeting the standards of proficient or advanced.

The bottom 30% of the lowest performing students are identified and their teachers are informed at the beginning of the year. The teachers look at the assessment results to determine the needs of the students and plan accordingly. Students set achievable goals that are regularly reviewed. Teachers also monitor progress three times a year using NWEA MAP assessments

2. How is timely, effective, additional assistance provided to students who are experiencing difficulty mastering the State's academic achievement assessment standards at an advanced or proficient level?

During the school day, students receive support through differentiated instruction, Tier I interventions through their classroom teacher, and through Tier II and Tier III interventions, including small group intervention classes and after-school programs These interventions lesson focusing on the following areas: test taking strategies, making textbook reading meaningful, writing to learn, and SIOP strategies. Behavior Intervention include lessons focusing on the following areas: character education, leadership, motivation, and discipline. Intervention after the school day which will be content specific tutoring called extended day. Restorative practices are used with students having academic and behavioral difficulty.

Additionally, the community liaison will advocate for our at-risk parents and students by identifying, providing and integrating resources and services necessary to enrich school programs, child rearing practices, and student learning and development for families at risk. The liaison will also provide information to students and families on community health, cultural, recreational, social support, and other programs/services; provide information resources, and support for community and district activities that link to learning, skills development and individual talents, including summer programs for students; provide a forum to discuss information regarding resources available at the county, state, and national level; sponsor parent education workshops and other courses or training for parents; and facilitate assemblies which support the affective/character education/social emotional health of our students and are crucial to our student's academic success.

Stout will also provide information to families to support academic success at home. These include:

1. State of Michigan' 100 ways for Parents to be Involved in their Child's Education
2. Grade Level Content Expectation, parent guides
3. The Parent Talk program
4. Parent Connect newsletter

3. How are students' individual needs being addressed through differentiated instruction in the classroom?

Teachers differentiate students' abilities, interests, and/or learning styles. In differentiating instruction, teacher plan and prepare lesson with clearly defined content & language objectives, age appropriate content, appropriate supplementary materials, adaptation of content as needed, meaningful activities that build background knowledge, explicitly linked concepts, explicit links to past learning, and emphasis on key vocabulary. Teachers provide comprehensible input by using appropriate speech, clear explanations, and concepts clarified through a variety of techniques. In differentiating instruction, teachers also provide ample opportunities for students, scaffolding techniques, and a variety of question types including those which require higher order thinking skills. Teachers ensure interaction within the classroom by providing opportunities for interaction, utilizing a variety of grouping configurations, giving appropriate wait time for student responses, and allowing students to clarify key concepts. Teachers have students practice and apply their knowledge by using hands-on materials and/or manipulatives, providing for the application of content & language, and allowing student to use their language skills (read, write, listen, and speak).

In their differentiated lessons, the teacher will clearly supports the content & language objectives, ensure a high-level of student engagement (at least 90% of the period), and make sure that the pacing of the lesson matches students' ability. Teachers will also review and assess key vocabulary and key content concepts. They will provide clear feedback on student output and continuously monitor student comprehension and learning (formative assessment).

Component 10: Coordination and Integration of Federal, State and Local Programs and Resources

1. In what ways are the programs coordinated and integrated toward the achievement of the schoolwide goals? Include a LIST of the State, local and Federal programs/resources that will be supporting the schoolwide program.

Stout Middle School coordinates and integrates funds from Title I, Title I A, Title II, Title III, IDEA funds, Federal Nutrition Program, Parent Teacher Organization Funds, and District General Budget to support the schoolwide program. The schoolwide program is designed to provide staff, parents, and students with the skills and resources necessary to be successful in their educational roles. All of our goals require teachers to be trained, so much of our coordinated resources go into professional development, professional development materials, and substitute teacher costs. To support teaching and learning, an instructional coach has been hired and instructional materials are purchased to address the levels of learners and provide support for those with underdeveloped skills. To enhance learning, create meaning, and bring in real world experiences, we fund assemblies and field trips for our students. Technology for student use and to connect students with tools that they use as digital learners is also purchased. Our coordinated resources are also used to support extended day interventions. Finally, resources are used to support parents and provide training and support so they are able to support their child at home both emotionally and academically.

2. Describe how the school will use the resources from Title I and other State, local and Federal sources to implement the ten required schoolwide components.

Stout Middle School coordinates and integrates funds from Title I, Title II, Title II D, Parent Teacher Organization Funds, and District General Budget to implement the required schoolwide components and to support a variety of programs described below. Each of these programs is intended to provide staff, parents, and students with the skills and resources necessary to be successful in their educational roles.

1. Stakeholders complete an annual Comprehensive Needs Assessment at staff meetings and parent meeting and through work completed by professional learning communities.
2. The staff at Stout Middle School is keep abreast of the most current School-Wide Reform measures through regular professional development activities. Resources are used for supplies for professional development and also for school-wide assemblies.
3. The school and district administration makes personnel decisions to insure that all student receive Instruction by Highly Qualified Staff. Resources are used send teachers to conferences and workshops so that they may be update-to-date on the current best practices. General fund resources support classroom supplies.
4. District administration attends the education job fairs host by local universities to Attract High Quality, Highly Qualified Teachers to High Needs Schools. Resources are used send teacher to conferences to support continued learning.
5. High Quality and On-going Professional Development is provided through district and school professional development sessions and by the district math and language arts coordinators and the building instructional coach. Resources have been used to support book studies, including studies on Classroom Instruction That Works, Differentiation, and Love & Logic. The available resources also allow teachers to attend off-site conferences and provide professional development opportunities for the school improvement team.
6. Resources are also used to implement Strategies to Increase Parent Involvement. Resources are used to support parent classes, math night, open house, parent classes, subscriptions to parent newsletters, and supplies for various parent activities.
7. Resources are also used to implement Transition Strategies, including sixth grade orientation, WEB Coordinators, WEB activities, Link Crew, and Exchange Day.

8. Resources help support Teacher Participation in Making Assessment Decisions by providing for Class A training, substitute costs, teacher stipends, and supplies.

9. Stout Middle School provides Timely and Additional Assistance to Students Having Difficulty Mastering the Standards. The available resources allow Stout to provide assistive technology, extended day learning opportunities, summer school, educational website subscriptions, instructional supplies and materials for ELL students, and paraprofessionals to support students with a variety of specific needs.

10. In addition to the previously mentioned program the Coordination and Integration of Federal State, and Local Programs and Resources includes the Federal Nutrition Program, School Nutrition Program, and the Free and Reduced Lunch program.

3. How does the school coordinate and integrate the following Federal, State and local programs and services in a manner applicable to the grade level to support achievement of the schoolwide goals: violence prevention programs, nutrition programs, housing programs, Head Start, adult education, vocational and technical education, and job training.

Our community based organization ACCESS provides free educational services to our families in several areas: anti-bullying, violence prevention, nutrition, adult education and vocational training. Additional educational opportunities are coordinated through our state government to offer programs that improve job readiness and parenting skills. The county offers grants which we use to fund our Response to Bullying initiative and program as well as our school wide Positive Behavior Intervention and Support (PBIS). Our school houses several courses provided by our Community/Adult Education department that include a variety of courses such as literacy, ESL, arts and crafts, financial planning, parenting, and many others. This process avails these learning opportunities to all parents since many courses are provided within walking distance.

Evaluation:

1. Describe how the school evaluates, at least annually, the implementation of the schoolwide program.

Stout Middle School reviews and modifies the Title I/School Improvement Plan annually. The district's Compensatory Education Office evaluates the Title I plan each year and the Assessment Office provides our school with reports and graphs indicating whether our students made gains on the M-STEP, WIDA, and other assessments. The building staff was organized into five committees, each focused on gathering data within one of these categories. The committees evaluated, within the category, what data provided the most information concerning the needs of the school. Data was disaggregated based on race and ethnicity, economically disadvantaged, and limited English proficiency, and comparisons of the achievement between subgroups was made. Data is examined across multiple years and grade levels to identify patterns and trends. By using multiple data sources to triangulate the data, priority needs supported by objective data emerged. The School Improvement Team reviews student achievement results in addition to local assessments to determine whether our plan was successful in reaching our desired academic goals and how to sustain progress. The Team brainstorms strategies and action steps that will improve the

delivery of interventions and researches alternative scientific-based approaches to address the needs of students who did not meet state standards and benchmarks. The Title I plan and budget are subsequently modified to reflect these findings and a new/revised plan is finalized for the following year. Additionally, our district has a School Improvement Council whose members review the School Improvement plan each fall and make recommendations for adjustments if needed. Members of the Council make an on-site visit to the school each fall and spring to examine the extent to which the plan is implemented and how effective the strategies and action steps are. The team provides feedback and recommendations for better implementation. Parents are also involved in the school improvement process. Parents attend the specific meetings addressing the School Improvement Plan have a participate in its success, direction and future plans. An annual parent meeting is held in the spring prior to completing the schoolwide plan to assess the implementation and effectiveness of the SIP. This meeting is used for evaluation of current practices and planning for the upcoming year. Data regarding assessments such as the M-STEP and NWEA MAP Assessments is presented and discussed and the amount of growth is assessed. Dependent upon the results of those assessments, adjustments to the plan are discussed and the next steps are determined.

2. Describe how the school evaluates the results achieved by the schoolwide program using data from the State's annual assessments and other indicators of academic achievement.

The Assessment Office provides Stout Middle School with reports and graphs indicating whether students made gains on the M-STEP, WIDA, and any other assessments. The School Improvement Team reviews student achievement results in addition to local assessments to determine whether the plan was successful in reaching the desired academic goals and how to sustain progress. The team also looks at data from mischooldata.org, identifies specific students who are not meeting the standards, and plans interventions for them.

3. Describe how the school determines whether the schoolwide program has been effective in increasing the achievement of students who are furthest from achieving the standards.

The School Improvement Team reviews student achievement results in addition to local assessments to determine whether the plan was
SY 2017-2018

successful in reaching the desired academic goals and how to sustain progress. The Team brainstorms strategies and action steps that will improve the delivery of interventions and researches alternative scientific-based approaches to address the needs of students who did not meet state standards and benchmarks. The students achieving in the bottom 30% are identified for classroom teachers at the beginning of the school year. Teachers monitor students' progress three times a year using NWEA MAP assessments. Students are also placed in intervention classes at the beginning of the year. Students in intervention classes set achievable weekly goals that are reviewed at the end of the week.

4. What process is followed by the school to revise the plan, as necessary, based on the evaluation, to ensure continuous improvement of students in the schoolwide program?

After looking at the achievement data, growth data, and individual student results, the School Improvement Team researches strategies and action steps that will improve the delivery of interventions and also researches alternative scientific-based approaches to address the needs of students who did not meet state standards and benchmarks. The Title I plan and budget are subsequently modified to reflect these findings and a new/revised plan is finalized for the following year. Additionally, the district has a School Improvement Council whose members review the school improvement plan each fall and make recommendations for adjustments if needed. Members of the Council make an on-site visit to the school each fall and spring to examine the extent to which the plan is implemented and how effective the strategies and action steps are. The team provides feedback and recommendations for better implementation.

Stout Middle School SIP 2017

Overview

Plan Name

Stout Middle School SIP 2017

Plan Description

School improved plan for Stout Middle School for 2017-2018 school year.

Goals Summary

The following is a summary of the goals encompassed in this plan. The details for each goal are available in the next section.

#	Goal Name	Goal Details	Goal Type	Total Funding
1	Writing: All students at Stout Middle School will demonstrate growth in becoming proficient writers	Objectives: 5 Strategies: 3 Activities: 11	Academic	\$32364
2	Reading: All students at Stout Middle School will demonstrate growth in becoming proficient readers	Objectives: 5 Strategies: 3 Activities: 18	Academic	\$382804
3	Math: All students will demonstrate improved computational and problem solving skills in mathematics.	Objectives: 5 Strategies: 3 Activities: 14	Academic	\$0

Goal 1: Writing: All students at Stout Middle School will demonstrate growth in becoming proficient writers

Measurable Objective 1:

A 5% increase of Sixth, Seventh and Eighth grade Black or African-American, Asian, White, Economically Disadvantaged, Gifted and Talented, Hispanic or Latino, Students with Disabilities, English Learners, Two or More Races, American Indian or Alaska Native and Native Hawaiian or Other Pacific Islander students will demonstrate a proficiency in writing competency in English Language Arts by 06/14/2018 as measured by proficiency on state and local assessments.

(shared) Strategy 1:

Multi-Tiered System of Support - Staff will implement a multi-tiered system for support to facilitate the academic and social growth of all students. Tier 1 instruction will emphasize best practices for teaching the Common Core State Standards and will include professional development on best practices for staff members. Tier 2 and Tier 3 instruction will emphasize additional intervention. A variety of models will be used to provide intervention to students requiring additional academic and/or social support.

Tier: Tier 1

Activity - Instructional Coaching	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible

School Improvement Plan

Stout Middle School

An instructional coach will provide classroom teachers with professional development and ongoing coaching on best practices in writing instruction.	Professional Learning	Tier 1	Implement	09/02/2014	06/14/2018	\$0	Title I Part A	Instructional Coach
Activity - Extended Learning Opportunities	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Students will participate in extended learning opportunities at museums such as the Henry Ford and at college campuses.	Field Trip		Implement	09/04/2013	06/14/2018	\$0	Title I Part A	Classroom teachers are responsible for planning extended learning opportunities.
Activity - Small Group Instruction	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Teachers will use small group instruction to reteach elements of the writing process to students and to confer with students..	Direct Instruction		Implement	09/02/2014	06/14/2018	\$0	No Funding Required	Classroom Teachers
Activity - AVID, Reading Apprenticeship, and Best Practices	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Classroom teachers will implement best practice strategies from the AVID program, Reading Apprenticeship Writing Connections, and Classroom Instruction That Works in their classrooms. Teachers will participate in Professional Learning Communities supporting the implementation of these strategies/best practices. Teachers will implement strategies that improve student engagement, including those that utilize technology such as Promethean Boards, iPads, and Chrome Books. Additionally, the AVID Elective Teacher will implement AVID tutorials.	Direct Instruction	Tier 1	Implement	09/02/2014	06/14/2018	\$0	No Funding Required	The building principal and instructional coach will provide and/or support any necessary training.
Activity - Professional Development - Thinking Maps	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
The building instructional coach and other district leaders will provide on-going professional development to teacher on the use of Thinking Maps.	Professional Learning	Tier 1	Getting Ready	09/05/2017	06/14/2018	\$0	No Funding Required	Instructional Coach and District Leaders

Strategy 2:

Restorative Practices - The most profound learning occurs when there is a healthy relationship between teacher and student.

School Improvement Plan

Stout Middle School

Restorative Practices assists teachers, students and parents to build, maintain and restore relationships.

Restorative Practices will help build capacity to enable students to self regulate behaviour and contributes to the improvement of learning outcomes.

11 Essential Elements, including affective statements, restorative questions, fair process, small impromptu conferences, proactive circles, responsive circles and restorative conferences. Staff teams, working in small professional learning groups, focus on understanding and using these elements.

Restorative Practices in Schools: Research Reveals Power of Restorative Approach, Part II

Abbey Porter

Tier: Tier 1

Activity - Professional Development - Restorative Practices	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Professional development on Restorative Practices will be provided for the entire staff throughout the school year. Training will also be offered to parents.	Behavioral Support Program	Tier 1	Implement	09/13/2013	06/14/2018	\$0	No Funding Required	The restorative practices committee, including the Social Responsibility Technician, School Social Worker, and Building Administrators will be responsible for scheduling this training.

Activity - Restorative Conferences	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
------------------------------------	---------------	------	-------	------------	----------	-------------------	-------------------	-------------------

School Improvement Plan

Stout Middle School

Building staff will use restorative conferences and peacemaking circles to support positive learning environments and to support students in making appropriate behavior choices.	Behavioral Support Program	Tier 2	Implement	09/02/2014	06/14/2018	\$0	No Funding Required	Restorative practices committee, social worker, counselor, community liaison, social responsibility technician, and building administrators.
---	----------------------------	--------	-----------	------------	------------	-----	---------------------	--

Activity - Social Responsibility Technician	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
A social responsibility technician will provide lessons on appropriate behavior to students in a variety of settings including in a responsibility room and in regular classrooms. The social responsibility technician will work directly with students having difficulty making appropriate behavior choices.	Behavioral Support Program	Tier 3	Implement	08/25/2014	06/14/2018	\$0	Title I Part A	The restorative practices committee and building administrators will support the social responsibility technician.

Measurable Objective 2:

A 10% increase of Students with Disabilities students will demonstrate a proficiency in writing competency in English Language Arts by 06/14/2018 as measured by proficiency on on state and local assessments.

(shared) Strategy 1:

Multi-Tiered System of Support - Staff will implement a multi-tiered system for support to facilitate the academic and social growth of all students. Tier 1 instruction will emphasize best practices for teaching the Common Core State Standards and will include professional development on best practices for staff members. Tier 2 and Tier 3 instruction will emphasize additional intervention. A variety of models will be used to provide intervention to students requiring additional academic and/or social support.

Activity - Differentiated Instruction	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
ELA teachers will use student assessment data to differentiate instruction by providing extra materials, providing small group tutoring, providing students with access to technology, re-teaching, using small group and one-on-one instruction for struggling students, and scheduling extended instructional sessions. Teachers will also use technology such as Promethean Boards, iPads, and Chrome Books to differentiate instruction and increase student engagement.	Direct Instruction	Tier 2	Implement	09/06/2016	06/14/2018	\$17457	Title I Part A	ELA teachers will be responsible for differentiating their instruction. The building principal will provide support with obtaining resources.

Strategy 2:

Restorative Practices - The most profound learning occurs when there is a healthy relationship between teacher and student. Restorative Practices assists teachers, students and parents to build, maintain and restore relationships. Restorative Practices will help build capacity to enable students to self regulate behavior and contributes to the improvement of learning outcomes. Staff will study the essential elements of Restorative Practices, including affective statements, restorative questions, fair process, small impromptu conferences, proactive circles, responsive circles and restorative conferences. Staff members will use Restorative Practices in the their classrooms and in their interactions with students.

Students will participate in extended learning opportunities at local museum such as the Henry Ford and at college campuses.	Field Trip	Tier 1	Monitor	09/13/2013	06/14/2018	\$6600	Title I Part A	Classroom teachers, with support from building administration and office staff, will coordinate these extended learning opportunities.

Activity - Daily 5	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
--------------------	---------------	------	-------	------------	----------	-------------------	-------------------	-------------------

School Improvement Plan

Stout Middle School

Sixth grade language arts teachers will use the Daily 5 to structure their lessons.	Monitor	Tier 2	Monitor	09/03/2013	06/14/2018	\$0	No Funding Required	The district language arts coordinator, instructional coach, and building principal will provide any necessary training and will monitor implementation.
---	---------	--------	---------	------------	------------	-----	---------------------	--

Activity - AVID Program and Best Practices	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Classroom teachers will implement the best practice strategies from the AVID Program using the WICOR framework in their classrooms, including using technology (Promethean Boards, iPads, Chrome Books, and other devices) to increase student engagement. Teachers will participate in Professional Learning Communities to support the implementation of the activity. Additionally, the AVID elective teacher will implement AVID tutorials.	Professional Learning	Tier 1	Implement	09/02/2014	06/14/2018	\$30308	Title I Part A, Title I Part A, Title I Part A	The building administrators, instructional coach, and AVID Site Team will provide any necessary training and monitor implementation. Some training may occur at local professional development sessions such as those hosted by RESA or MISD.

Activity - Instructional Coach	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
--------------------------------	---------------	------	-------	------------	----------	-------------------	-------------------	-------------------

School Improvement Plan

Stout Middle School

The instructional coach will support the implementation of the strategies and activities in the school improvement plan. The coach will provide training for teachers and model strategies in their classrooms.	Professional Learning	Tier 1	Monitor	09/02/2014	06/14/2018	\$138008	Title I Part A	The building principal is responsible for selecting and supervising an instructional coach.
---	-----------------------	--------	---------	------------	------------	----------	----------------	---

Activity - Reading Intervention Classes	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Students will be assigned to reading intervention classes depending upon their level and area of need in reading. The intervention classes will be smaller than regular language arts classes and will use research-based programs including, but not limited to, Corrective Reading, Read 180, and Success Maker.	Direct Instruction	Tier 3	Implement	09/02/2014	06/14/2018	\$68812	Title I Part A, Title I Part A	The building principal, instructional coach, and language arts teachers will identify students needing intervention. The building principal, instructional coach, and teacher providing the intervention will monitor the effectiveness of the interventions.

Activity - Professional Development - Thinking Maps	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
---	---------------	------	-------	------------	----------	-------------------	-------------------	-------------------

School Improvement Plan

Stout Middle School

Teachers will be trained in the use of Thinking Maps and teach their students how to use them.	Professional Learning	Tier 1	Getting Ready	09/05/2017	06/14/2018	\$0	No Funding Required	The building instructional coach and/or district coordinators will provide this training.
--	-----------------------	--------	---------------	------------	------------	-----	---------------------	---

Activity - Differentiated Instruction	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
ELA teachers will use student assessment data to differentiate instruction by providing extra materials, providing small group tutoring, providing students with access to technology, re-teaching, using small group and one-on-one instruction for struggling students, and scheduling extended instructional sessions. Teachers will also use technology such as Promethean Boards, iPads, and Chrome Books to differentiate instruction and increase student engagement.	Direct Instruction	Tier 2	Implement	09/06/2016	06/14/2018	\$17457	Title I Part A	ELA teachers will be responsible for differentiating their instruction. The building principal will provide support with obtaining resources.

(shared) Strategy 2:

Extended Time and Intervention - Extended Time and Intervention - Students with underdeveloped skills will receive extra time and instruction. Both are offered to our Special Education (SE) students, Economically Disadvantaged (ED), and English Language Learners (ELL). This will also benefit students in our bottom 30%.

---	---------------	------	-------	------------	----------	-------------------	-------------------	-------------------

School Improvement Plan

Stout Middle School

Students falling within the bottom 30% of proficiency will be expected to join an extended day program focused on the areas in which they exhibit underdeveloped skills.	Direct Instruction	Tier 2	Implement	10/14/2013	06/14/2018	\$5666	Title I Part A	Teachers in the extended day program are responsible for this activity. Building administrators will monitor this activity.
--	--------------------	--------	-----------	------------	------------	--------	----------------	---

Goal 3: Math: All students will demonstrate improved computational and problem solving skills in mathematics.

Measurable Objective 1:

A 10% increase of Sixth, Seventh and Eighth grade Black or African-American, Asian, White, Economically Disadvantaged, Gifted and Talented, Hispanic or Latino, Students with Disabilities, English Learners, Two or More Races, American Indian or Alaska Native and Native Hawaiian or Other Pacific Islander students will demonstrate a proficiency computation and problem solving in Mathematics by 06/14/2018 as measured by proficiency on state and local assessments.

(shared) Strategy 1:

Multi-Tiered System of Support - Staff will implement a multi-tiered system for support to facilitate the academic and social growth of all students. Tier 1 instruction will emphasize best practices for teaching the Common Core State Standards and will include professional development on best practices for staff members. Tier 2 and Tier 3 instruction will emphasize additional intervention. A variety of models will be used to provide intervention to students requiring additional academic and/or social support.

Building administrators and the instructional coach will provide support.

Strategy 2:

Restorative Practices - The most profound learning occurs when there is a healthy relationship between teacher and student. Restorative Practices assists teachers, students and parents to build, maintain and restore relationships. Restorative Practices will help build capacity to enable students to self regulate behaviour and contributes to the improvement of learning outcomes. 11 Essential Elements, including affective statements, restorative questions, fair process, small impromptu conferences, proactive circles, responsive circles and restorative conferences. Staff teams, working in small professional learning groups, focus on understanding and using these elements.

Students falling within the bottom 30% of proficiency will be expected to join an extended day program focused on the areas in which they exhibit underdeveloped skills.	Academic Support Program	Tier 3	Implement	09/09/2013	06/14/2018	\$0	No Funding Required	Community Liaison, Instructional Coach, and Counselor

Measurable Objective 4:

A 10% increase of Economically Disadvantaged students will demonstrate a proficiency in math problem solving in Mathematics by 06/14/2018 as measured by proficiency on state and local assessments.

(shared) Strategy 1:

Multi-Tiered System of Support - Staff will implement a multi-tiered system for support to facilitate the academic and social growth of all students. Tier 1 instruction will emphasize best practices for teaching the Common Core State Standards and will include professional development on best practices for staff members. Tier 2 and Tier 3 instruction will emphasize additional intervention. A variety of models will be used to provide intervention to students requiring additional academic and/or social support.
