

“CONNECTING PEOPLE TO CARE”

2015 - 2016 PROVIDER DIRECTORY

www.dwmha.com

Welcoming Declaration

FOR RECIPIENTS

WE THE PEOPLE of the community who receive services, welcome you to this Authority which serves all individuals with dignity and respect. Our mission is to provide hope, trust, and acceptance to all individuals who request services. Patience and acceptance are mandatory in receiving care and services from this Authority. We acknowledge that mental health and physical well-being are fundamental to the quality of life and productivity of individuals, families and communities.

In OUR NEW VISION, we will provide a safe environment with compassion and understanding. Services are being offered in a wide range of community-based settings and no longer exclusively in large isolated institutions. This environment will be non-judgmental and committed to listening and cooperation. We will promise that — through hard work, dedication, and team efforts — recovery is made possible for all. Individuals will be seen and treated as human beings who share common experiences and learn to grow through their efforts. By individuals sharing our stories of strength and hope, others will begin to believe in themselves and learn that recovery is possible.

We will eliminate stigma and discrimination to enhance the protection of human rights and dignity. The necessary requirements will be used in order to empower people at risk or suffering from mental health issues, substance abuse and/or other disabilities to participate fully and equally in society. We would like to offer to you the freedom of choice as it relates to your on- going process of recovery and keep you involved in your care on sensitive needs and culture.

Within this Authority we will promote recovery, self-empowerment and activities that will support your growth and well being. We have a commitment to enhance partnerships between agencies responsible for care and support, such as health, housing, education, and employment. This declaration will be upheld by everyone who offers services, as well as those who receive services.

Created by the consumers and stakeholders of the Detroit Wayne Mental Health Authority. For copyright and permission to use, contact the Authority at 640 Temple, Detroit, MI 48201 or 313-833-2500.

11. To receive information on how to obtain referrals for specialty care and other benefits that is not provided by the primary care Provider.
12. To be made aware of those services that is not covered and may involve cost sharing if any.
13. To receive information on advance directives.
14. To be provided with information on the structure and operation of the Authority.
15. To be provided with timely written notice of any significant State and Provider network related changes.
16. To be provided with information annually about enrollee rights and protections.
17. To be treated with dignity and respect.
18. To receive information on available treatment options.
19. To participate in decisions regarding health care, the refusal of treatment and preferences for future treatment decisions.
20. To be provided with information on services that is not covered on moral /religious basis.

Children's Waiver Programs (CWP)

- The Children's Home and Community Based Services Waiver Program (CWP) provides services that are enhancements or additions to regular Medicaid coverage to children up to age 18 who are enrolled in the CWP. The Children's Waiver is a fee-for-service program administered by the Community Mental Health Service Provider (CMHSP). The CMHSP is responsible for assessment of potential waiver candidates.

The Children's Waiver is managed by the following 3 (three) Service Providers:

The Guidance Center 734-785-7718
Neighborhood Service Organization (NSO) 313-875-7601
Community Living Services (CLS) 734-467-7600

The array of services available to persons with developmental disabilities who meet the eligibility criteria for the Children's Waiver Program include:

Community Living Supports
Enhanced Transportation
Environmental Accessibility Adaptations (EAAs)
Family Training (previous called didactic services)
Non-Family Training (previously called psychological/behavioral treatment)
Fencing
Respite Care (do not include vacation respite)
Specialized Medical Equipment and Supplies
Specialty Services (music, recreation, art, and massage therapists)

Habilitation/Supports Waiver (HSW) Programs

The array of services available to persons with developmental disabilities who meet the eligibility criteria for the HSW include:

- Community living supports
- Enhanced medical equipment
- Enhanced pharmacy
- Environmental modifications
- Family training
- Goods and Services
- Out of home non-vocational habilitation
- Personal Emergency Response System (PERS)
- Prevocational services
- Private Duty Nursing (PDN)
- Supported employment
- Respite Care
- Support Coordination

Autism Services for Children

Autism Spectrum Disorder

(ASD) is a range of complex neurodevelopment disorders, characterized by social impairments, communication difficulties, and restricted, repetitive, and stereotyped patterns of behavior. Classical autism is the most severe form of ASD, while other conditions along the spectrum include a milder form known as Asperger syndrome, and childhood disintegrative disorder and pervasive developmental disorder not otherwise specified (usually referred to as PDD-NOS). Although ASD varies significantly in character and severity, it occurs in all ethnic and socioeconomic groups and affects every age group.

Is Your Child...

- ☒ Having difficulty learning?
- ☒ Having problems acquiring new skills?
- ☒ Having problems communicating?
- ☒ Experiencing problem behaviors that get in the way of daily activities?

If so, have your child screened for ASD

Any helping profession can screen for ASD using an MCHAT. Once screened, if the ASD is indicated; you want to have a trained professional determine if your child has an Autism Diagnosis through **Assessment** and **Testing**. Services and supports are discussed and detailed in the child's Individual Plan of Service. Other possible services available to help your child include things like:

- Occupational Therapy
- Physical Therapy
- Speech Therapy
- Nursing Services
- Assistive Technology
- Respite
- Parent Education & Training
- Social Skills Groups
- Psychiatric Services
- Parent Support Group Meetings
- Supports Coordination

and ABA...

Applied Behavioral Analysis (ABA) is an evidence-based treatment based on the science of learning and behavior. ABA is a set of principles that form the basis for many behavioral treatments that encourages positive behaviors and discourages negative behaviors in order to improve a variety of skills. ABA must be provided by provided in trained and skilled professional. ABA therapy can be used to:

- Increase language
- Increase communication skills
- Improve attention
- Improve focus
- Improve social skills
- Improve memory
- Improve academics

**To have your child screened for ASD Contact
Wayne County Access Center:
1-313-224-7000
1-800-241-4949
1-866-870-2599 (TTY/TDD)**

PARENTS ARE IMPORTANT

The parents or primary caregivers need to know and understand the ABA therapy goals, behavior plans, and strategies so well that in the ABA therapists' absence they could independently teach the skills to their child. ABA just isn't as effective without a team approach. If the behaviors that the ABA therapist teaches to the child are not generalized, reinforced, and maintained by the family, the therapy will not be successful.

“CONNECTING PEOPLE TO CARE”

This directory is made available to Wayne County residents as a resource guide in identifying mental health and substance use service providers and supports. It is available upon request and is provided annually to enrollees. Copies are available to download from the Detroit Wayne Mental Health Authority website at www.dwmha.com.
