

Dear Parent/ Guardian,

Covenant Community Care Family Dental Center will be providing professional dental services at **your child's school** throughout the school year

Covenant will be providing dental examinations, x-rays, teeth cleanings, sealants and fluorides. If your child needs additional **restorative or emergency treatment** your child will be referred for the rest of their care to **Covenant Community Care Family Dental Center at 5716 Michigan Ave, Detroit 48210.**

Covenant Community Care can become your DENTAL HOME or you may go to a dentist of your choice.

We will send home a dental report card with the dental examination findings as well as the treatment provided.

If your child already sees a dentist on a regular basis, we encourage you to continue to receive care through that office. Our intent is to provide care to those children who do not already have a dentist.

If your child has dental insurance or Medicaid, we will bill the child's insurance company for you. If duplicate services are received during follow-up care obtained at your child's dental home, insurance benefits may be affected.

If your child does not have dental insurance, dental services will be provided at **no cost to you** due to an arrangement with your child's school.

There will be **no out of pocket cost** for preventive services performed at your child's school.

If your child does not have dental insurance and the child needs to go to our clinic for services, the child may be eligible for our sliding fee scale program at our clinic.

If you want your child to have dental services, please complete the medical history and permission form and return to the school office.

If you have any questions please call,

Elizabeth Easter, RDH, BSDH
